

MVOICE 8000 Series USB/Bluetooth Speakerphone

For Efficient Collaboration in Large Conference Rooms

Have clear conversations even when people are across a large room with the MVOICE 8000 series speakerphone. It can connect to a notebook, tablet via USB, or mobile phone via Bluetooth. Also works great with PC-based communication software, to replace the PCs and mobile phone's speaker and microphone with outstanding audio quality.

- **Simply Plug and Play**

Easy connect to your PC or laptop via USB, works great with PC based communication softphone i.e Skype, Zoom etc.

- **Wireless conference with Bluetooth**

Support connection to mobile phone via Bluetooth, turn your mobile phone as a conference gateway anytime anywhere. (MVOICE 8000-B/8000 EX-B only)

-**Enjoy crisp, clear and rich audio play back**

Full bandwidth frequency response and advanced CrystalSound audio processing technologies deliver remarkably rich full audio for natural, effortless conversations.

- **Ultra-low power consumption**

USB charging for 300mAh max, work with ultra low power supply, no worry of drawing too much power from your PC or video conference system

- **2 Expandable microphones available**

Can adapt to large conference situations while necessary with 2 expandable microphones.
