

MVOICE 8000 Series USB/Bluetooth Conference speakerphone

For Efficient Collaboration in Large Conference Rooms

Have clear conversations even when people are across a large room with the MVOICE 8000 series speakerphone. It can connect to a PC, notebook via USB, or mobile phone via Bluetooth. Also works great with PC-based communication software and wide range video conferencing systems, to replace the PCs and mobile phone's speaker and microphone with outstanding audio quality.

- Simply Plug and Play

Easy connect to your PC or laptop via USB, works great with PC based communication softphones, i.e Skype, Zoom etc.

- Wireless conference with Bluetooth

Support connection to mobile phone via Bluetooth, turn your mobile phone as a conference gateway anytime anywhere. (MVOICE 8000-B/8000 EX-B only)

-16' Microphone Pick Up

Each one speakerphone can pick up the sound with a 16' x 16' range with crystal clear audio.

-Robust Audio Quality

Let the far end hear clearly with our advanced audio algorithm, intelligent noise cancellation and powerful audio output.

- Ultra-low power consumption

USB charging for 300mAh max, work with ultra low power supply, no worry of drawing too much power from your PC or video conference system

- 2 Extension microphones available

Upgrade to fit large conference situations by connection 2 extension microphones.
